

Eden - Wonder

Tom: **G**

Intro: **G D C G**

I used to wonder how it'd feel like **D**

I looked at everyone for answers **C**

Chasing round and down in circles **Bm**

On purpose

In search of something **C**

I spent awhile trying to learn somehow **D**

Some missing pieces will not stop me **C**

I tried to fill my gaps with heartbeats, so fleeting, cold **Bm**
feet, beside me

And I still don't know how I feel about it **G**

And I still don't know but I feel like I'm learning **Am**

How to clear my head when all I think about is you **D**

But I'm only human **C**

I found out **D**

I know now **G**

I still wonder how it turned out **D**

If I done everything, but what if **C**

If I lived like I feel like I could've, I should've **Bm**

And I was younger **C**

But I'm good now **D**

I found out **G**

That I still don't know how I feel about it **Am**

And I still don't know but I feel like I'm learning **D**

How to catch my breath when all I'm breathing for is you **Bm**

I can't keep holding down **C**

But you can show me how **Em**

If you're only human **D**

Oh, I think I found out **Bm** **Em**

Woah **C**

I think I know now **Bm** **Em** **D** **C**

I used to wonder what love is **D**

But ever since you've been around **C**

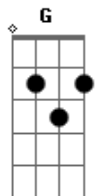

I finally think I have it figured out, but I missed it **Bm**

I see now **C**

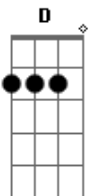

I found out **D**

I know now **G**
