

Elderbrook - Something About You

tom:
Intro: E Gbm A Gbm
I miss the touch of morning sun
Making silhouettes of us
Way back when we had our paradise
We're staying up out through the night
Smoking, drinking? getting high

Where did you go? What can I do?
I'm working on my problems
But I need you here to solve them
Where did you go? What should I say?

[Refrão]

There's something 'bout you
Keeping me sober

But now I'm holding onto you
There's something 'bout you
Keeping me sober

But now I'm holding onto you

There's something 'bout you
That keeps picking me up when I'm low
There's something 'bout you
That keeps picking me up when I'm low

I miss the company we had
Back when I was still on track
Now I'm making my own paradise
But now the drink is tasting strange
And the high isn't the same
Well? I'm still wrong and I apologize

Where did you go? What can I do?
I'm working on my problems
But I need you here to solve them
Where did you go? What should I say?

[Refrão]

There's something 'bout you
Keeping me sober

But now I'm holding onto you
There's something 'bout you
Keeping me sober

But now I'm holding onto you

There's something 'bout you
That keeps picking me up when I'm low
There's something 'bout you
That keeps picking me up when I'm low

[Ponte]

There's something 'bout you
Keeping me sober

But now I'm holding onto you
Ooh? oh, holding onto you
Oh, holding onto you
Oh? holding onto you

There's something 'bout you
That keeps picking me up when I'm low
(And I've been falling)
There's something 'bout you
That keeps picking me up when I'm low
(And I've been falling)
There's something 'bout you
