

# Elijah Woods - Fingers Crossed

tom:  
F

I think it was the fourth of that July  
Dm  
I remember looking in each other's eyes  
Gm  
Watching as the spark was fading  
Bb  
But neither one could say it

F  
Ironically we laughed until we cried  
Dm  
The Sun came up and then it got so quiet  
Gm  
I knew the end was getting closer  
Bb  
I thought we would grow old, yeah

F  
But you  
Dm  
Will always have my heart, it's nothing new  
Gm  
Whenever I'm alone I try to look through our old photographs

Remember when we used to laugh  
Bb  
But I don't recognize us anymore

F  
My momma told me  
Dm  
If you love someone you've got to set them free

But I guess that you're not coming back  
Gm  
I thought that we could beat the odds

And try to fix all of our flaws  
Bb  
But when you said you loved me

Oh, you must have had your fingers crossed

F  
The time goes by the scars no longer show  
Dm  
But underneath it all there's still this hole

Gm  
Filled up with my second guesses  
Bb  
But I guess I've learned a lesson

F  
That people in your life will come and go  
Dm  
But from the ashes something beautiful will grow  
Gm  
'Cause I'm happier than ever lately  
Bb  
I'm thankful for all you gave me

F  
Oh, you  
Dm  
Will always have my heart, it's nothing new  
Gm  
Whenever I'm alone I try to look through our old photographs

Remember when we used to laugh  
Bb  
But I don't recognize us anymore

F  
My momma told me  
Dm  
If you love someone you've got to set them free  
Gm  
But I guess that you're not coming back  
Gm  
I thought that we could beat the odds

And try to fix all of our flaws  
Bb  
But when you said you loved me

Oh, you must have had your fingers crossed

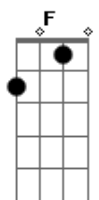

F Dm  
Ah, uh, ah, uh, ah, uh  
Gm  
(Must have had your)

Ah, uh, ah, oh

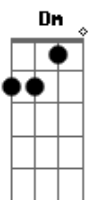

Bb  
When you said you loved me

Must have had your fingers crossed
