

Elton John - Dark Diamond

Tom: **Db**
Intro: **Bbm Gb Ab** (OCTAVES: **Ab Ab Bb Db Eb**)

Bbm **Gb**
Oh, I'm a dark diamond
Ab **Db Fm**
I've turned hard and cold
Bbm **Ebm** **Ab** (OCTAVES: **Ab Ab Bb Db Eb**)
Once was a jewel with fire in my soul
Bbm **Gb**
There's two sides of a mirror
Ab **Db Fm**
One I couldn't break through
Bbm **Ebm** **Fm**
Stayed trapped on the inside, wound up losing you

Db
Tell me how does it work
Db **Db** **Gb**
How do you make things fit
Fm **Bbm**
Spent all my life trying to get it right
Ebm **Ab**
I've put it together and it falls apart
Db **Db** **Db Gb**
I thought to myself I might understand
Fm
But when the wall's built
Bbm **Ebm**

And the heart hardens
Ab (**Db Bbm Ebm Ab**)
You get a dark diamond
(**Bbm Gb Ebm Ab**)
Dark diamond
Oh, I'm a dark diamond
But you're something else
You read me more than I read myself
The one star I could count on
Only comet I could trust
You burnt through my life to the true meaning of love
