

Elton John - Enchantment Passing Through

```
Intro: F - Eb - F - Bb - Bb - C
                                   Bb C
A few more days and we'll be home in glory
Already they'll be getting out the flags
                        Bb C
With Memphis high motor dormitory
For me, I only see a lot of snags
The prospect above all I find distressful
Is having to give up the soldier's life
                          Bb
If anything I'm rather too successful
                   Bb
                               Eb
They made me hand my sword in for a wife
For just because I've triumphed as a slaver
Brought booty back to Egypt by the ton
Of this and every month, I'm now the flavor
And scheduled to do things I've never done
```

```
And why should I tell you this, a stranger I just met
       Cm
A woman who in hours from now I'll certainly forget
Anonymous and undemanding
Enchantment passing through
                              Eb
                                     C
                                                              Bb
                    Gm
My secrets and my confidence.....are safe enough with you
My days out on the field are all but ended
They'll put me out to grass which means the throne
Bedecked and bejeweled alongside my intended
                            Bb C
I feel as though my heart is set in stone
But maybe I am being far too gloomy
Yes, maybe I'll make waves in pastures new
Find government and politics come to \ensuremath{\mathsf{me}}
                             Bb Eb F
As naturally as I now talk to you
