

Elton John - I Want Love

```
Intro: A Gbm Dbm C D (2x)
                                                              But I want love, just a different kind
                                                                               G7
                                                              I want a love won't break me down,
A Gbm
I want love but it's impossible
                                                              Won't brick me up, won't fence me in
        Gbm
Dbm
A man like me so irresponsible
                                                              I want a love that don't mean a thing
Db7 Gbm
A man like me is dead in places
B Bm E
                                                              That's the love I want I want love
Other men feel liberated
                                                              Bridge:
                                                                              \mathsf{C}
Verse 2:
                                                              So bring it on, I've been bruised
(Chords same as 1st verse)
       Gbm E
                                                              Don't give me love that's clean and smooth
And I can't love shot full of holes
                                                                             Bb
                                                              I'm ready for the rougher stuff
                 D
Dbm Gbm
Don't feel nothing, I just feel cold
                                                                              D
Db7 Gbm
Don't feel nothing, just old scars
                                                              No sweet romance, I've had enough
           Bm
                                                              Instrumental break:
Toughening up around my heart
                                                              A Gbm E Dbm Gbm D
Chorus:
                                                                            Gbm
              G
                                                              A man like me is dead in places
But I want love, just a different kind
                                                                             Bm F
                G7
                                                              Other men feel liberated
I want a love won't break me down,
 Dbm
                          Gb7
                                                               Chorus:
Won't brick me up, won't fence me in
                                                                             G
                                                              But I want love, just a different kind
       Rm
I want a love that don't mean a thing
                                                                               G7
                                                              I want a love won't break me down,
         E
That's the love I want I want love
                                                              Won't brick me up, won't fence me in
                                                              $\operatorname{\textsc{Bm}}$ I want a love that don't mean a thing $\operatorname{\textsc{C}}$ D C
Verse 3:
(Chords same as 1st verse )
A Gbm E
I want love on my own terms,
                                                              That's the love I want I
                                                                                          want love
Dbm Gbm
                  D
After everyting I've ever learned
                                                              Repeat Chorus to coda
          Gbm
Me, I carry too much baggage
                                                              Coda:
                                                                     Gbm
                                                                             Dbm C
           Bm E
Oh man, I've seen so much traffic
```
