

Elton John - Mansfield

```
Tom: G
                                    Afinação: D G C F A D
Intro:
 Bb
    Bb
                       D
It's a case I guess of paradise lost
                      Bm
Ten years back on the hands of the clock
In that little house on Mansfield
            D
On your old block
Gbm
                          G
Sometimes the magic of the past is all we've got
Just you and me at a crossroads then
Ain't it funny how we were old friends
Accidentally thrown together
Did we intend
To be the romantic novel you never want to end
And it's the contact of the eye that meets across a crowded
And how I kind of wound up the lyrics to your tune
```

```
You said, 'Funny but it feels like I've known you all my life
                    F
           Bb
                          C
And how it might feel to kiss you on the mouth tonight'
In between the Star of David and the California moon
     Fb
                                 Bh
The Santa Ana winds blew warm into your room
            Eb
We were crazy, wild and running
                Cm7
Blind to the change to come
         Cm7
In that little house on Mansfield
   G Gm Eb Bb F
We'd wake at the break of dawn
    G Gm Eb F G
In an Indian summer gone
In the candlelight I can recall
Your naked shadow looking ten feet tall
Like a wild pony dancing
Along the wall
Off balance I found love the only place to fall
                    Bb
 G Gm Fb
We'd wake at the break of dawn
   G Gm Eb F
                    G
```
