So treat me as your own

Well slowly Joseph well he lowered the rifle And he emptied out the shells Van Bushell he came towards him He shook his arm and wished him well

He said now hey blind man that is fine But I sure can't waste my time So move aside and let me go my way I've got a train to ride

Well Joseph turned around His grin was now a frown He said let me just refresh your mind Your manners boy seem hard to find

You're the son of your father...

Well there's two men lying dead as nails On an East Virginia farm For charity's an argument That only leads to harm

So be careful when they're kind to you Don't you end up in the dirt Just remember what I'm saying to you And you likely won't get hurt
