Elton John - Take Me Back

If you want my loving, take me back.
 If you miss my touch little girl, take me back.
 When the dreams you lean on are beginning to crack -
 open up your heart little girl oh-oh and take me back.
 If you want my loving, then take me back.
 If you're on your own little girl, take me back.
 When the nights grow longer - turning blacker than black -
 open up your heart little girl oh-oh and take me back.

Playing a part you're well prepared for, there you stand.

With all I ever cared for in your hand.
 I'm waiting all the time for some kind of sign from you.
 And I'll go on and on this way.
 Waiting for the day when I will hear you say you'll take me back.
 If you want my loving, take me back.
 - G7(add A)
 If you're feeling down little girl, then you'll take me back.
 When you look around you for the love that you lack -
 open up your heart little girl, oh-oh.
 You got my heart little girl, oh-oh.
 Make a start little girl - and say you'll take me back.
 Take me back.
