Dm

There's a dusty old gutter he's lying in now

He's blind and he's old

And there's a **G** bottle that **A** rolls down the **Dm** road

Me I'm young and I'm so wild

And I still feel the need

Of your **G** apron strings once in a **A** while **Bm**

For there's **A** taxi cabs hooting **E** **G7** **Dm**

But I can't be foot-loose forever **A**

My suitcase it's a cheap one **E**

My darling she's a dear one **G7** **C**

My head's feeling light as a feather

Dm

Tell me when the whistle blows

Part of me asked the young man for the time

With a cool vacant stare of undue concern

He said nine

It's not so bad but I really do love the land

And rather all this than those diamante lovers

In Hyde Park holding hands

Blowing heat through my fingers

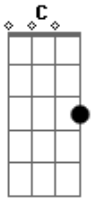

Trying to kill off this cold

Will the street kids remember

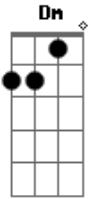

Can I still shoot a fast cue

Has this country kid still got his soul
