Elton John - The Last Song

Tom: C

```
C                 Am
Yesterday  you came to lift me  up
   F                      C
 As light as straw and brittle  as a bird
  Dm                    Am
Today I weigh   less than a shadow on the wall
        G          C    Am      G
 Just one more whisper  of a voice Unheard
C                 Am
 leave the windows  open
      F                    C
 As fear  grows please hold me in your arms
Dm                      Am
Won't  you help  me if you can to shake this anger
   G        C    Am        G
I need your gentle hands  to keep me calm
           C
 'cause  I never thought  I'd lose
   G
```
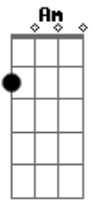

```
I only thought I'd win
   Am                                           Em
I never dreamed  I'd feel  this fire  beneath my   skin
                      F
I can't believe you love me
                 C          Am
I never thought  you'd come
                        C
I guess I misjudeaged  love
         F       C   G   C
Between  a father and his son
Bridge:    C   Am    F  G
C                 Am
Things we never said come together
               F           C
 The hidden truth no longer haunt  me
Dm                      Am
Tonight  we touched  on the things that were never spoken
         G            C    Am    G
That kind of understanding sets  me free
```
