

Elvis Presley - How The Web Was Woven

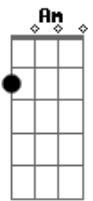

Tom: G
Intro: G
How the web was woven
In my soul, don't you know
How the web was woven
Can't Get loose, Can't let Go
Like the weave of a spider
Wound around my heart
I'm no lonGer free

At last I'm where you want me
Don't you know, that's where, where I want to be?
Spinnin' round like a blue fly
ThouGhts of you fill my head
And no matter, oh how I try
I Can't sleep in my bed
I've been round for the last time
Oh, Girl, what Can I do?
That's how the web was woven,
How I fell in love, fell in love with you
I've been round for the last time
Oh, Girl, what Can I do?
That's how the web was woven,
How I fell in love, fell in love with you
That's how the web was woven,
How I fell in love, fell in love with you
