

# Elvis Presley - It's Over

Tom: C

C  
If time were not a moving thing  
Em  
And I could make it stay  
Edim  
This hour of love we share  
Would always be  
F  
There'd be no coming day  
C  
To shine a morning light  
Bb C C2 C  
And make us realize our night is over  
C  
When you walk away from me  
Em  
There is no place to put my hand  
Edim  
Except to shade my eyes against the sun  
F  
That rises over the land  
C  
I watch you walk away  
Bb  
Somehow I have to let you go  
C C2 C  
Now it's over  
F  
If you knew just how I really feel  
F  
You might return and yet  
F  
There are so many times  
Bb  
That people have to love and then forget  
F

Oh there might have been a way somehow  
C  
I have to force myself to say  
F  
It's over  
C  
So I turn my back,  
Em  
Turn my collar to the wind  
Edim  
Move along in silence  
F  
Trying not to think at all  
C  
I set my feet before me  
Bb  
Walk the silent street before me  
C  
Now it's over  
C  
If time were not a moving thing  
Em  
And I could make you stay  
Edim  
This hour of love we share  
Would always be  
F  
There'd be no coming day  
C  
To shine a morning light  
Bb C  
And make us realize our night is over  
C C2  
It's over  
C C2 C  
It's over
