Elvis Presley - Sweet Angeline

Tom: E

```
   E              A              B7         E
Dbm              Gbm
Sweet Angeline I loved you much more than poets say in rhyme
Am          B7         E
Just for one short time
E             A              B7         E
Dbm                      Gbm
Sweet Angeline remember though we've not seen the summer
through
Am                       E   E7
I lived only for you
A                 Abm        Db7      Gbm         Am
B7
I'm only human and I realize it's no use trying to disguise
                     G      A                   B7
My love for you Angeline has ended
E                  Dbm                    Gbm
So let's be thankful now not sad
 Am        B7                    E
For the little love we've had
E             A              B7         E
Dbm                      Gbm
Sweet Angeline remember though we've not seen the summer
through
Am                       E   E7
I lived only for you
A                 Abm        Db7      Gbm         Am
B7
I'm only human and I realize it's no use trying to disguise
                         G      A                   B7
My love for you Angeline has ended
E                  Dbm                    Gbm
So let's be thankful now not sad
 Am        B7                    E
For the little love we've had
```
