Elvis Presley - Trouble

Tom: C

```
                                                        C
If you're looking for trouble
                                              C
You came to the right place
                                         C
If you're looking for trouble
                                    C
Just look right in my face
                               C
I was born standing up
                          C
And talking back
                                        C7
My daddy was a green-eyed mountain jack
      F
C
Because I'm evil, my middle name is misery
            G7                      F
C
Well I'm evil, so don't you mess around with me

I've never looked for trouble
                          C
But I've never ran
                               C
I don't take no orders
                               C
From no kind of man
                          C
I'm only made out
```

```
                                              C
Of flesh, blood and bone
      C
But if you're gonna start a rumble
                          C7
Don't you try it on alone
                               F
C
Because I'm evil, my middle name is misery

                          C            G7
C
Well I'm evil, so don't you mess around with me
C
I'm evil, evil, evil, as can be
C
I'm evil, evil, evil, as can be
         G7                         G7
G7
So don't mess around don't mess around don't mess around with
me
C
I'm evil, I'm evil, evil, evil
      G7                            G7
C
So don't mess around, don't mess around with me
C
I'm evil, I tell you I'm evil
      G7                                        C
So don't mess around with me

Yeah
```
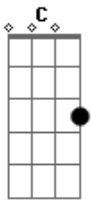

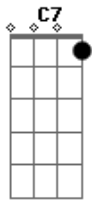

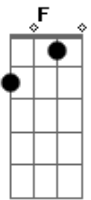

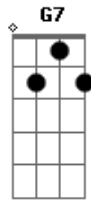

Acordes
