Elvis Presley - Trouble

Tom: C

```
                                          C
If you're looking for trouble
                                      C
You came to the right place
                                    C
If you're looking for trouble
                               C
Just look right in my face
                           C
I was born standing up
                      C
And talking back
                                  C7
My daddy was a green-eyed mountain jack
                   F
C
Because I'm evil, my middle name is misery
            G7                      F
C
Well I'm evil, so don't you mess around with me
                                     C
I've never looked for trouble
                    C
But I've never ran
                           C
I don't take no orders
                        C
From no kind of man
                   C
I'm only made out
```

```
                                          C
Of flesh, blood and bone
   C
But if you're gonna start a rumble
                      C7
Don't you try it on alone
                            F
C
Because I'm evil, my middle name is misery

                  C            G7
C
Well I'm evil, so don't you mess around with me
C
I'm evil, evil, evil, as can be
C
I'm evil, evil, evil, as can be
        G7                      G7
G7                             C
So don't mess around don't mess around don't mess around with
me
C
I'm evil, I'm evil, evil, evil
       G7                      G7
C
So don't mess around, don't mess around with me
C
I'm evil, I tell you I'm evil
      G7                              C
So don't mess around with me

Yeah
```
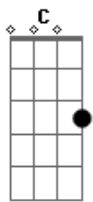

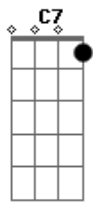

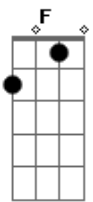

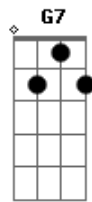

Acordes
