

# Emmylou Harris - Gold

Tom: G

Oh the night is growing colder  
 And the stars have lost their shine  
 And I have been forsaken  
 By everything I thought was mine  
 For in the darkest hour  
 When the final story's told  
 No matter how bright I glitter baby  
 I could never be gold  
 You gave up your finest treasures  
 For the one you saw in me  
 But how could I know the measure  
 Of all you needed me to be  
 Though I came with sweet intentions  
 More my pockets could not hold  
 No matter how bright I glitter baby  
 I could never be gold  
 I finally gave up counting

The ways you said I let you down  
 When I fell into that river of no return  
 And you watched me drown  
 Oh I can sparkle like a diamond  
 Have silver line my soul  
 No matter how bright I glitter baby  
 I could never be gold  
 ( D G C G D G )  
 You look so high and low for heaven  
 I tried so hard to show the way  
 But though I flew on wings of angels  
 My feet were always made of clay  
 I could come trailing clouds of glory  
 But you saw nothing to behold  
 No matter how bright I glitter baby  
 I could never be gold  
 No matter how bright I glitter baby  
 I could never be gold
