

English Dogs - Left Me For Dead

tom:

B

When I needed you most you walked out the door
 Blood on my face as I lay on the floor
 I never even knew you had a boyfriend
 15 Stone all muscle round the bend

Leave me be leave me be
 Ive had enough cant ya see
 You left me for dead left me for dead
 You kicked me in the head and you left me for dead
 Left me for dead left me for dead

You kicked me in the mouth and left me for dead

You can't recognise my bloodstained face
 But you still carry on cos you're a real headcase
 I never even knew that she went out with you
 But it's too late now cos we've had our screw

Leave me be, leave me be
 I've had enough can't ya see
 You left me for dead left me for dead
 You kicked me in the head and you left me for dead
 Left me for dead left me for dead
 You kicked me in the mouth and left me for dead
