Eric Clapton - Born In Time

Tom: E

Intro: E   Dbm   Gbm   Am   E

```
E
In the rolling night
                        Dbm
In the stardust of a pale moonlight
                   Gbm
I think of you in black and white
   Am                    E
when we were made of dreams

E
I walked alone through the shady streets
            Dbm
Listening to my heart beat
                 Gbm
In the record breaking heat
     Am              E
When we were born in time

E            B              A              E
Just when I thought you were gone You came back
E            B           E
Just when I was ready to receive you
                           B
You were smooth you were rough
           A          E
You were more than enough
E       Gbm            B
Ahh baby why did I ever believe you
A
I believe you
```

```
            E
In the rising curse
                              Dbm
And the wings of nature will test every worth
                              Gbm
I took you close and I felt the reason
   Am                E
And we were born in time

SOLO

E          B            A            E
Just when I knew who to find you went back
E          B              E
Just as the fire light was gleaming
            E              B
You were snow you were rain
          A                    E
You were strife and you were pain
E        Gbm                B
Oh baby can it be you?ve been scheming
         A
Or was I dreaming

                         E
In the wings of mystery
                  Dbm
In the foggy weather destiny
                     Gbm
You're still so deep inside of me
   Am                E
And we were born in time
```
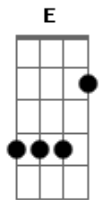

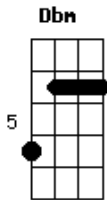

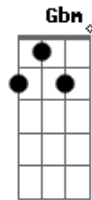

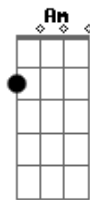

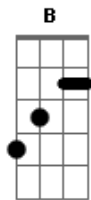

Outro: E   Dbm   Gbm   Am   E

Acordes

E   Dbm   Gbm   Am   B   A
