                                                               We made a vow, We'd always be friends
               G
        [Primeira Parte]
                                                               How could we know that the promises end?
I don't care if you never come home
                                                               [Interlúdio]
I don't mind if you just keep on rolling away on a distant sea
I don't love you and you don't love me
                                                               La la
                                                                         la la la la
                                                                         Bm7
[Segunda Parte]
                                                                         la la la la
                                                               La la
                                                               [Quarta Parte]
You cause a commotion when you come to town
Give 'em a smile and they melt
                                                               I tried to love you for years upon years
And the lovers and friends are all good and fine
                                                               You refuse to take me for real
But I don't like yours and you don't like mine
                                                               It's time you saw what I want you to see
                                                               And I would still love you, if you'd just love me

[Terceira Parte]
                                                               We made a vow, We'd always be friends
                                                               How could we know that the promises end?
I don't care what you do at night and
                                                               [Postludio y Final]
I don't care how you get your delights
I'll leave you alone, I'll just let it be
I don't love you and you don't love me
                                                                         Bm7
