Eric Clayton - Still Got The Blues

```
                    tom:
                    Em
            Am    D     Am     G     C          Gbm
It used to be so easy      to give my heart away
                    B
But I found out the hard way
Em          Gbm    Em
There's a price I have to pay
Am      D           G                  C          Gbm
I found then that love   was no friend of mine
      Am              B                G Em
I should've known better   time after time

[Chorus]
        Bm      Em         A
It was so long,  so long ago
         C          B         Em
But I've still got the blues for you

[Verse 2]
Am          D        Bm                 C      Gbm
   It used to be so easy     to fall in love again
      B
But I found out the hard way
E       Gbm        G     Em Am
It's a road that leads to pain
          D          G              C          Am
I found then that love   was more than just a game
```

```
'Cause I was playin' to win
B                          Bm  Em
But losing just the same

[Chorus]
        Bm         Em        A
It was so long,  so long ago
            C          B         Em  Gbm
But I've still got the blues for you

      B          Em                        Am
So many years since I've seen your face
           B      C          Bm
Here in my heart there's an empty space
Am              Em
Where you used to be

[Chorus]
G       Bm  E Bm B      Em A
Well it was   so long,  so long ago
C          B          Em
But I still get the blues for you

Bm         Em           Bm
Though the days come and go
Em                  A
There is one thing I know
C          B          Em
I still get the blues for you
```
