

Eric Lee - Come Break My Heart

tom:
Capostrate na 1ª casa
Intro: C Gm Dm F

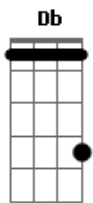

There ain't a lot of people who know me for me
In all the little ways that you do
We both know I'm no angel but either way you choose
I'm the one who keeps on coming home to you
The times you didn't love when I was funny
The endless nights I drove you up the wall
Well the world might be crazy and life will get you blue
But I know I keep on coming home to you

[Refrão]

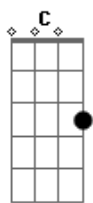

So come break my heart
As long as it stays in your hands
I'd go back to the start
Do it over and over again
Again

I've been counting all the things I love about you
And honey I lost track a long time ago
Oh you might drive me crazy but I sure do love the view

There's a million things that pull me home to you

So come break my heart
As long as it stays in your hands
I'd go back to the start
Do it over and over again
Oh so come take my heart
'Cause it only beats right in your hands
No matter how hard
I come home over and over, over and over again
(C Gm Dm F)
(F Em Dm C Gm)

So come break my heart
As long as it stays in your hands
I'd go back to the start
Do it over and over again
Oh so come take my heart
'Cause it only beats right in your hands
No matter how hard
I come home over and over, over and over again
Again
Oh, again
