

Esron - U.F.O.

Tom: C

Walking in the streets wondering all day (why am I alone?)
 Singing to myself about my mistakes (playing that song)
 I feel that my feelings are so deep (like my loneliness)
 But sometimes I just have to sleep (and I'll be okay)

So, tonight, I look at the sky
 Trying find somewhere to feel alive
 'Cause we are so tired to be living alone here
 And now I'm looking for a new lifestyle to
 Be a better version of me

All the gods and all the sounds
 Came to study all of our love
 We can fly, we can be U.F.O's!
 With all of our love

I was on the dark side of the moon

Praying to Venus take me for you
 The ghosts are calling me from the stones
 To tell me that all my past has gone (and I'll be okay)

So, tonight, I look at the sky
 Trying find somewhere to feel alive
 'Cause we are so tired to be living alone here
 And now I'm looking for a new lifestyle to
 Be a better version of me

All the gods and all the sounds
 Came to study all of our love
 We can fly, we can be U.F.O's!
 With all of our love

We can be U.F.O's!
 We can be U.F.O's!
 Now we can be U.F.O's!
 We can be U.F.O's!

Acordes
