

Esteban - Malaguena Rumba Intro

Tom: **F**

NOTE: after each string you pick it must be followed by open plucking 1st string

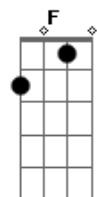

{ **Em** } { **Am** } {last 2 notes are back in **Em** }

just something fun to play and girls seem to dig it so its all good!!

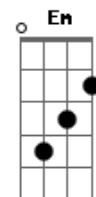

very easy more of a spanish guitar song, sounds awesome on steelstring ac. but just as good on electric too so jam out.

(its the song they play in desperado with Antonio banderas< also the opening song for new movie 'carlito's way, rise to power, which in that version they have each string cool)
