

Esteban - Malaguena Rumba Intro

Tom: F

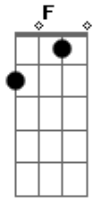

NOTE: after each string you pick it must be followed by open plucking 1st string

{ Em } { Am } {last 2 notes are back in Em }

just something fun to play and girls seem to dig it so its all good!!
 very easy more of a spanish guitar song, sounds awesome on steelstring ac. but just as good on electric too so jam out.

(its the song they play in desperado with Antonio banderas< also the opening song for new movie 'carlito's way, rise to power, which in that version they have each string cool)
