

# Esteban - Smokers In Airplanes

Tom: **F**

Intro: **G F**

**G**  
I'm lost by your faith

**F**  
I guess this is over

**G**  
Take my gun away

**F**  
'Cause I don't wanna die anymore

**G**  
Speak for yourself

**F**  
If you need attention

**G**  
Don't think you're gonna change the world you live

**F**  
By singing "la la la la"

**G F**  
La la la la lalalala (2x)

**G F**  
I'm tryin' to awake without nightmares and lovers

**F**  
But the voice inside my head is just singing "la la la la la"

**G F**  
La la la la lalalala (2x)

**Bb F**  
Help! You can save me now (2x)

**G**  
I'm locked in these chains

**F**  
And time is running over

**G F**  
Just give me the keys 'cause we don't need to fight like before

**G F**  
The present is future that already pass  
And old melodies are the only things that last

**G F**  
La la la la lalalala

**Bb F**  
Help! You can save me now (2x)

**Bb F**  
Help me! Save me now!

**Bb F**  
Somehow we can make it loud

**G**  
I'm trying to hide myself  
Like smokers in airplanes

**F**  
Like kids on the streets who just want to sing

**G F**  
La la la la lalalala
