

Ethel Cain - A House In Nebraska

tom:
D

Labored ^Dbreaths and bed sores ^G
Sing it to me all day long ^D
When the aching sound of silence ^G
Used to be our favorite song ^D
You and me against the world

You were my man and I your girl ^D
We had nothing except each other ^G
You were my whole world ^G
But then the day came ^D
And you were up and gone ^G

And I still call home that house in Nebraska ^D
Where we found each other on a dirty mattress on the second floor ^G
Where the world was empty ^D
Save you and I ^D
Where you came and I laughed, and you left, and I cried ^G
Where you told me even if we died tonight, that I'd die yours ^D
These dirt roads are empty ^G
The ones we paved ourselves ^D
Your mama calls me sometimes ^G
To see if I'm doing well ^D
And I lie to her ^D
And say that I'm doing fine ^G

When really I'd kill myself ^G
To hold you one more time ^G
And it hurts to miss you ^D
But it's worse to know ^G

That I'm the reason ^G
You won't come home

But I still call home that house in Nebraska ^D
Where we found each other on a dirty mattress on the second floor ^G
(When I needed you, and I need you still) ^D
Where the world was empty

Save you and I ^D
Where you came and I laughed, and you left, and I cried ^G
Where you told me even if we died tonight, that I'd die yours ^D
(So I died there under you, every night, all night)

You know, I still wait at the edge of town ^D
Praying straight to God that maybe you'll come back around ^G
I cry every day, and the bottles make it worse ^D
'Cause you were the only one I was never scared to tell I hurt ^G

And I found photographs of our school, on the day we met ^D
I thought that you were so beautiful, it was love, I guess ^G
And you might never come back home, and I may never sleep at night ^D

But God, I just hope you're doing fine out there, I just pray that you're all right ^G

And I feel so alone ^D
And I feel so alone out here ^G
I feel so alone ^D
And I feel so alone out here ^G
And I feel so alone without you ^D
I'm so alone out here ^G
I feel so alone, I feel so alone ^D
I'm so alone out here without you, baby ^G
(^D ^G)
