

## Evergrey - In Orbit (feat. Floor Jansen)

tom:

**Intro:** Em D C Am  
Em G D C

**Em** I'm caught here in this vacuum  
G D Em  
I'm fallen from a sunless sky  
C D  
I've red myself from value  
Am D  
And leave this emptiness behind

So I run, before it's over  
Em G D

I run, but still I believe, it seems  
Em C

I run, but not getting closer  
Em G D

I run, to get away from this dream

I've been watching you from a distance  
G D Em  
I've been monitoring you from cloudless skies  
C D  
I've been calling your name just to ease your resistance  
Am D  
But nothing seems to shift your darkened sky

I run, before it's over  
Em G D

I run, but still I believe, it seems  
Em C

**Chorus:**

I run, but not getting closer  
Em G D

I run, to get away from this dream  
G D Em

I'm an orbit, stars exploding, when I call your name  
G C

Here in the dark I'm lonely  
D  
(Em )

You're my compass, the only reason to stay sane

( Em G C D )  
( Em D C Am )  
( Em G D )  
( Em D C Am )  
( Em G D C )  
( Em G )  
( Em G D )

[Solo] C D C Em
