The Everly Brothers - I Used To Love You

Tom: G

```
            G         C        Am           G
I used to love you not so long ago
          C           A7                  D7
I used to love you but I can't pretend that I don't know
   G              B7            C                     A7
Whenever I turn my back you go a-beatin' down somebody else's
door
       G      C    G               C
And in my misery I let you torture me
          G           A7      D7          G
I used to love you but I don't love you anymore

          C          Am             G
I used to kiss you I used to really care
          C            A7                 D7
I used to kiss you but you don't want to treat me fair
  G                     B7
I just don't like to be treated so mean
    C                          A7
And you're the meanest thing I ever have seen
    G                C       G        C
I'm through with you so long farewell adieu
          G            A7      D7          G
I used to love you but I don't love you anymore

D7      G                 D7             G
I can't stay with you the thing to do is run away from you
  Em
I don't wanna play the game the rules don't stay the same
C              G      A7   C D7
I'm always the one to lo-o-o-ose
```
