

# The Everly Brothers - Shady Grove

Tom: **G**

Beyond this **G** maze of city streets beyond these painted faces  
There's a road that leads to cool green fields

And girls that dress in laces  
Everyone has a front porch swing every house a parlor  
When the throat is dry an? parched with thirst

There's more than just spring water

Shady Grove my little miss Shady Grove my darlin'

Shady Grove my little miss come with me to Harlan

Chestnut hair in the mornin? sun looks like it?s on fire

She's long she's lean she won't run she fills me with desire

Kentucky eyes look up at me from a bed of yellow daisies

The sun is warm her kiss is hot she's gonna drive me crazy

Shady Grove my little miss Shady Grove my darlin'

Shady Grove my little miss come with me to Harlan

Shady Grove my little miss Shady Grove my darlin'

Shady Grove my little miss come with me to Harlan
