

Exiles of Eden - Still Here (Even When I'm Not) (Acoustic)

tom:
Intro: **Ebm** **Db** **B** **Abm**

Ebm **Db**
I see your shadow in the glow of my screen

B **Abm**
Another day gone, another space in between

Ebm **Db**
We laugh through a signal, cry through a call

B **Abm**
But nothing replaces the warmth of it all

Ebm
The world keeps spinning, but I feel stuck

Db
Like I'm chasing time and running out of luck

B
But you're the thread I never let unwind

Abm
Still tied to your heart, still holding the line

[Refrão]

Ebm **Db**
I'm still here, even when I'm not

B **Abm**
You're still mine, no matter how far the clock

Ebm
Ticks and pulls at the time we've lost

Db
But love don't fade, and hearts don't rot

B **Abm**
Every mile is a war we fought

B **Db** **Ebm**
And we're still here, even when we're not

Ebm **Db**
I talk to the stars like they know your name

B **Abm**
And whisper to silence just to stay sane

Ebm **Db**
I count down the days, but they move like glass

B **Abm**
So slow, so sharp?but they always pass

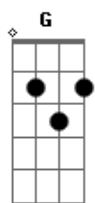

Ebm
I've got your voice in a worn-out song

Db
And memories that keep me strong

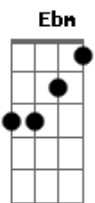

B
No ocean, sky, or state of mind

Abm
Could ever pull you off my spine
