Extreme - When I'm President

Tom: A

From: BMHALL@ (Brian Hall)

Well, here's a couple of my favorite. They're a blast to play!

Tab Key:
/ or \ -- slide up or down
    -- hold
 h   -- hammer on
 p   -- pull off
 X   -- Play the string muted
(?X)   -- Repeat ? number of times

```
                        When I'm President
                        ==================
```

The intro for this song goes something like this:

                                                                I'm much older now...

The A is held for four measures while Gary sings, then Nuno plays:

                                                                You can be anything...
A again held for four measures, then:
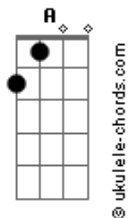

Bridge: (play 2X)

I think the chorus is something like:

Chorus:

Anyway, that's the basic theme of the song.
