

# Fall Out Boy - 27

Tom: **D**

If home is where the heart is

Then we're all just fked

I can't remember

I can't remember

And I want it so bad

I'd shoot the sunshine into my veins

I can't remember the good old days

And it's kind of funny

The way we're wearing anchors on our shirts

When being anchored aboard just feels like a curse

My mind is a safe

And if I keep it then we all get rich

My body is an orphanage

'We take everyone in'

Doing lines of dust and sweat

Off last night's stage

Just to feel like you

The milligrams in my head

Burning tobacco in the wind

Chasing the direction

Chasing the direction you went

You're a bottled star

The planets align

Just like Mars

You shine in the sky

You shine in the sky

Are all the good times getting gone?

They come and go and go and come and go

I've got a lot of friends who are stars

But some are just black holes

My mind is a safe

And if I keep it then we all get rich

My body is an orphanage

'We take everyone in'

Doing lines of dust and sweat

Off last night's stage

Just to feel like you

And it's kind of funny

The way we're wearing anchors on our shirts

When being anchored aboard just feels like a curse

My mind is a safe

And if I keep it then we all get rich

My body is an orphanage

'We take everyone in'

Doing lines of dust and sweat

Off last night's stage

Just to feel like you
