Tom: C

```
   Parte 1:

            Am        C          D      F
I wanna see your animal side let it all out
            Am            C
I wanna see the dirt under your skin
          D        F
I need your broken promises, yeah
Am          C          D    F
 I want the guts and glory, baby, baby
Am        C        D
 This town is wasted and alone

   Refrão:

           Am      G
But we are alive here in death valley
    Em                    F
But don't take love off the table yet
       Am          G            Em       F
'Cause tonight it's just fire alarms and losing you
Am       G     Em          F
We love a lot so we only lose a little
           Am         G          Em
But we are alive (we are alive) we are alive

   Parte 2:

            Am        C          D      F
I wanna see your animal side let it all out
               Am        C
Oh there you go; undress to impress
             D                    F
You can wear the crown but you're no princess
Am          C            D    F
 So put the 'D' in 'dirt' now, baby, baby
Am             C          D
```
```
   Let's get you wasted and alone

But we are alive (we are alive) we are alive

F              G                  Em
 We're gonna die, it's just a matter of time
                       F
Hard times come good times go
              G            Em             F
I'm either gone in an instant or here 'til the bitter end I, I
never know
                G              Em    F
What I've got will make you feel more alive
                         G               Em
I'll be your favorite drug, I will get you high, I will get
you high
