

## Fall Out Boy - I Slept With Someone In Fall Out Boy And All I Got Was This Stupid Song Written About Me

```
(2:01)
Intro: (0:00)
                                                                "So douse yourself in cheap perfume..."
Verse:
(0:03)
                                                               Bridge:
                                                               (2:24)
"I found the cure to growing older..."
                                                               PM ......
(0:22)
                                                                "Someone old, someone new..."
(0:32)
                                                               PM ......
"I'm the first kid to write of hearts.."
                                                                "Feeling borrowed, always blue.."
Chorus:
                                                               (2:46)
(0:51)
                                                               "I found the cure to growing older.."
"So douse yourself in cheap perfume..."
                                                               Chorus:
(1:13)
                                                               (3:05)
Verse:
                                                                "So douse yourself in cheap perfume."
(1:23)
                                                               End:
                                                               (3:25)
"Find a safe place, brace yourself, bite your lip..."
                                                              e|----|
B|----|
                                                              G | -----
(1:42-2:01)
                                                              D|-5\---|
                                                               A | -5\ - - - |
"They call kids like us vicious and carved out of stone.."
                                                              D|-5\---|
Chorus:
                                                                "Can't cover it up."
```
