

Fastball - Out Of My Head

tom:

E

I arranged the organ intro for guitar; it sounds pretty good with overdrive. The solo is a clean electric. Of course I didn't even attempt to show the rhythms, so you'll have to listen to the CD for that.
Intro:

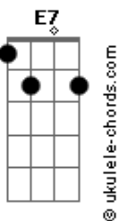

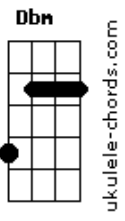

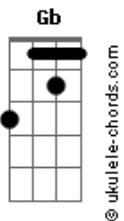

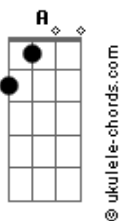

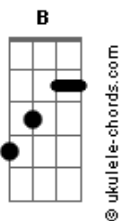

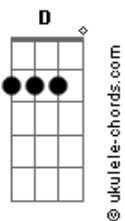

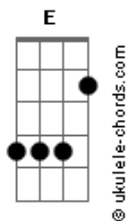

Verse

Sometimes I feel
Like I am drunk behind the wheel
The wheel of possibility
However it may roll
Give it a spin
See if you can somehow factor in
You know there's always more than one way
To say exactly what you mean to say

Chorus

Was I out of my head? Was I out of my mind?
How could I have ever been so blind?
I was waiting for an indication
It was hard to find

Acordes

Don't matter what I say only what I do
I never mean to do bad things to you
So quiet but I finally woke up
If your sad then it's time you spoke up too
Solo

Chorus x 2

Stuff you should know:
p=pull off
h=hammer on
b=bend
r=release
/=slide up
\=slide down

here are the chords:

E 022100
Dbm 446654
B xx4442
E7 020100
A x02220
Gb xx4322

The piano chords on the CD are higher than these so you can play em higher on guitar if you want, but imo high guitar chords sound funny
Anyhow, if you come up with some variations that sound better with the CD, send 'em on over.
