

Fenne Lily - Top To Toe

tom:
Capostrate na 6ª casa

[Primeira Parte]

Tell me it's the best for us
Stake away the truth because
Sleeping top to toe with me
Isn't what it used to be

[Refrão]

So I'm changing all my days to make your night
It's just not right
And you tell me I'm a child
And take my light
To smoke your mind
But I don't smile like before
And you take him to your bed
It's all been said
You need this more

[Segunda Parte]

Tell me I'm a time you'll miss
Feelings always change like this
But you're all the words I need
To explain myself It seems

[Refrão]

So I'm changing all my days to make your night

It's just not right
And you tell me I'm a child
And take my light
To smoke your mind
But I don't smile like before
And you take him to your bed
It's all been said
You need this more

[Ponte]

Please don't go I need you
"Take control", you tell me
Please don't go I need you
"Take control"

[Refrão]

So I'm changing all my days to make your night
It's just not right
And you tell me I'm a child
And take my light
To smoke your mind
But I don't smile like before
And you take him to your bed
It's all been said
You need this more
Won't you take me to your bed
I should have said
I need you more
