

Fifth Harmony - All Again

tom:

G

Frozen in time, but in my mind there's no erasing you

I toss and I turn

It's gonna hurt no matter what I do

I'm trembling inside, no, I can't stop myself from shaking

Even though I know you take my heart and break it

You'd break it

But every kiss and every breathless moment

(I'd do it all again)

Trying to make it right but I know it'll all go wrong

(I'd do it all again)

Cause I can't lie

I love you still for all my life I always will

Even though I know how the story ends

I'd do it all again

(Cadd9 Em7 G)

Oh, babe

Remembering when you made me dance around the living room

It still makes me smile, I don't know how to let go of you

But now that you're gone, I can't stop myself from crying

I gotta move on, but I'm not strong

I'll keep on trying, I'm trying

But every kiss and every breathless moment

(I'd do it all again)

Trying to make it right but I know it'll all go wrong

(I'd do it all again)

Cause I can't lie

I love you still for all my life and I always will

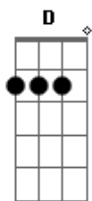

Even though I know how the story ends

I'd do it all again

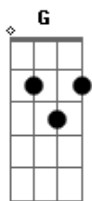

And I hate how much I still love you such a tragedy

It's impossible to comprehend this hold you got on me
