

## Fifth Harmony - Angel

Tom: E

Who said I was an angel?  
Who said I was an angel?  
Oh yeah

We was just a moment, nothing serious  
Never really paid you no mind

Dropped the back side, you're paying attention  
Shakin' all that, ah

Should've never not kept your word  
Woulda had a reason to keep mine  
You was too inconsistent  
Shakin' all that, ah

Should've never crossed that line with ya  
Everything was cool, just drinkin' with ya  
Way too young to be up in cuffs  
Wasn't tryna spend my life on the phone with ya  
Gotta keep it on one hundred with ya  
The original me wouldn't fuck with ya  
And I was beginning to fuck with ya

Who said I was an angel?  
Who said I was an angel?  
Who said I was an angel? (oh yeah)  
When you look at me, what do you see?  
Open your eyes, I'm more brilliant than you'll ever be  
Who said I was an angel?

Yeah, won't lie and say I don't lie  
Yeah, I might've told a few lies, yeah

Won't lie and say I didn't try  
But you're only worth a few tries, yeah  
Track star, think you're running these streets  
You ain't the only one running the streets  
They're making ground like I only wear cleats, yeah

Should've never crossed that line with ya  
Everything was cool, just drinkin' with ya  
Way too young to be up in cuffs  
Wasn't tryna spend my life on the phone with ya  
Gotta keep it on one hundred with ya  
The original me wouldn't fuck with ya  
And I was beginning to fuck with ya

Who said I was an angel?  
Who said I was an angel? (oh yeah)  
When you look at me, what do you see?  
Open your eyes, I'm more brilliant than you'll ever be  
Who said I was an angel?

Who said I was an angel? (Who said I was an angel?)  
Didn't know the real me, I'm far from an angel)  
Who said I was an angel? Oh, yeah  
(Never took the time out, never had time to figure me out  
When you look at me)  
When you look at me, what do you see? (What do you see?)  
Open your eyes, I'm more brilliant than you'll ever be  
Who said I was an angel?  
(Who said I was a, an angel? Oh)
