

## Fifth Harmony - Ladder

Tom: C

C G Am

No I don't need your ladder

It's like one step forward and two steps back

I get so close to the top  
Then comes the avalanche

But I keep moving

There's no turning back

'Cause I know eventually  
I'm gonna make it there

You can't tell me I won't do it

'Cause I will, I will

So step it to the side 'cause I

I, don't need your ladder to climb

I, don't need your ladder to climb

'Cause I know just where I'm going

I know that I'mma get there

I don't need your ladder to climb

No I don't need your ladder

No I don't need your ladder

I may be young, but I've seen it a-all

I've been up and down

I've won the crown  
I've hit the wall

I don't need no ladder

'Cause I stand tall

And the harder it gets, the more I'll press

The more I'll sow

You can't tell me I won't do it

'Cause I will, I will

So step it to the side 'cause I

I, don't need your ladder to climb

I, don't need your ladder to climb

'Cause I know just where I'm going

I know that I'mma get there

I don't need your ladder to climb

No I don't need your ladder

No I don't need your ladder

Woah-oh-oh-oh

We'll go, go (we'll going to the top, baby)

Straight to the top (oh, yeah)

Straight to the top (yeah)

Woah-oh-oh-oh, we'll go, go

Straight to the top, straight to the top

I, don't need your ladder to climb

I, don't need your ladder to climb

'Cause I know just where I'm going

I know that I'mma get there

I don't need your ladder to climb

No I don't need your ladder

No I don't need your ladder (oh, baby, I don't, I don't, I don't)

(No I don't need your ladder)
