

Fifth Harmony - Over

Tom: **A**

A
Walls are shaking

Now that your windows break
This place is out of control **E**

This place is out of control

A
Everybody in a trance

All we wanna do is dance
This place is out of control **E**

Yeah we are out of control

A
When the sadness comes

It got us sitting all alone
Cause we don't wanna go home **E**

Yeah we don't wanna go home

A
Cause now the party is over

We just wanna get louder
We never ever wanna stop **E**

We can move this to the parking lot

Lets take this somewhere else
Cause now the party is over **A**

We don't wanna get older
We never ever wanna stop **E**

Now it's time for us to light up

Take it somewhere else
Cause now the party is over **A**

(**E**) 5x

A
The sun comes up now

All we do is stand and talk
Cause we are out of control **E**

Yeah we are out of control

A
The time is ours

Got the people in my car
This night is out of control **E**
Yeah we are out of control

A
When the sadness comes

It got us sitting all alone
Cause we don't wanna go home **E**

Yeah we don't wanna go home
Cause now the party is over **A**

We just wanna get louder
We never ever wanna stop **E**

We can move this to the parking lot

Lets take this somewhere else
Cause now the party is over **A**

We don't wanna get older
We never ever wanna stop **E**

Now it's time for us to light up

Take it somewhere else

Cause now the party is...

A
Know we like it crazy and we do what we want

Still regret nothing cause we
We don't care, we don't care **E**

A
Know we like it crazy and we do what we want

Still regret nothing cause we
We don't care, we don't care **E**

A
Cause now the party is over

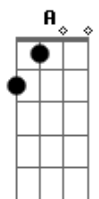

We don't wanna get older
We never ever wanna stop **E**

Now it's time for us to light up

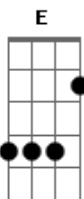

Take it somewhere else
Cause now the party is over **A**
