

Finneas - I'm In Love Without You

Tom: C

I'm in love without you
 Please don't still love me
 I'm in love without you
 But you still find a way inside my dreams
 (C G Em D)
 How can you say there was nothing wrong with us?
 When everyday you called, you yelled, you had enough
 I loved you more and more each time you slammed the door
 My bloody knuckles knocking on and on the bruise
 But I loved you less and less as my love turned to loneliness
 And I'd already lost what I was afraid to lose
 Now I'm in love without you
 Please don't still love me
 I'm in love without you

But you still find a way inside my dreams
 Now, can you see, why you should get over me?
 Soon there will be someone else for you to learn to need
 You loved him more and more as you stopped keeping score
 Of who I was and what we were and when we knew
 You loved me less and less as you lean in against his chest
 And hear the heartbeat that only beats for you
 Now I'm in love without you
 Please don't still love me
 I'm in love without you
 But you still find a way inside my dreams
 Inside my dreams
 Inside my dreams
 Inside my dreams
 Inside my dreams
 I'm in love without you
