

Five Finger Death Punch - Walk Away

Tom: E

(forma dos acordes no tom de D)

Capostrate na 2ª casa

Intro: A Em G D

I'm sorry
For the demon I've become
You should be sorry
For the angel you are not
I apologize

For the cruel things that I did
But I don't regret
One single word I said

Just walk away make it easy on yourself
Just walk away please release me from this hell
Just walk away there's just nothing left to feel
Just walk away pretend that none of this is real

(A Em G D)

A Em

Could you forgive me
If I told you that I cared
Would you be sorry
If I swore that I'd be there
Please forgive me
For laughing when you fall
I'm so sorry
But I never cared at all

Just walk away make it easy on yourself
Just walk away please release me from this hell
Just walk away there's just nothing left to feel
Just walk away pretend that none of this is real

Just walk away make it easy on us both
Just walk away there was never any hope
Just walk away you already know the deal
Just walk away pretend that none of this was
None of this was real
