In a life where we work out there's a house upon a hill
A front porch going all of the way round and a Flower pot on
                                                               You still bite your lip when I look at you in that way

We sit and watch the sunset while the kids play in the field

You take me out dancin' on the weekend that You don't sing
                                                              Save me from what I've become
