

Fleetwood Mac - Doctor Brown

```
Tom: D
Oh they call me Doctor Brown
They call me that lovin' man
Oh, they
                call me Doctor Brown
                         D
They call me that
                        lovin' man
And
        if you got some trouble
Come around and see what
                                 you can
G --> A
You don't have no prescription
You don't have to take no pills
You don't
                 have no prescription
And baby you don't have to take
                                         \  \, \text{no pills}
If you come to see me
Doctor Brown will cure
                                          your ills
```

Acordes

```
G --> A
Oh ask any woman in my neighbourhood
                ask any woman in my neighbour ---- hood
                Brown can't cure you
If doctor
Nobody can do you no
                        good
Yes, you don't have no prescription
And baby you don't have to take no pills
You don't
                 have no prescription
And baby you don't have to take
                                        no pills
You just come around to see me
And Doctor Brown will cure
                                        your ills
repeat last two verses once
```
