Riff **B**

Tuning: Standard Capo 3rd Fret all notes relative to Capo

This is one of my favorite acoustic songs, but I have only heard the live version (on PBS) in my life and when i tried to learn the solo I found some differences in the live version and the version that is tabbed out...here is how i play it based on the LIVE version it is 100 percent correct

END SOLO

Remember i have never heard the recorded version of the song so it may or may not be the same...

PEACE
