

## Fleetwood Mac - Say You Will

```
tom:
Intro: F Bb F Bb
[Primeira Parte]
Somethin' in you brought out somethin' in \ensuremath{\mathsf{me}}
That I've never been since
That part of me that was only for you
  C Bb
That kind of romance
Comes only once, that kind of love \begin{tabular}{c|c} Bb & C & F \end{tabular}
That kind of fever dance
That you love because you become someone else in an instant
                                   Gm
Say you will, say you will give me one more chance
                     Bb
At least give me time to change your mind
   C Dm
That always seems to heal the wounds, if {\tt I} can
Get you to dance
[Segunda Parte]
Somethin' in you put a hold on my heart
Bb C F
```

```
It's hard to believe now
Here in the place that will never be dark
I remember that place
That kind of touch, electricity of love
  Bb
That certain kind of grace
That you love because you become someone else in an instant
[Refrão]
Say you will, say you will give me one more chance
                      Bb
At least give me time to change your mind
        Dm
That always seems to heal the wounds, if I can
Get you to dance
