

# Fletcher - 20 Something

tom:  
Capostrate na 1ª casa

I think there's holes in my pockets  
Money doesn't stay in them no more

It just drops and hits the floor and

I had a phone but I lost it

So if you wanna see my face again

Grab some paper and a pen

[Pré-Refrão]

'Cause lately I've been feeling kinda lonely

Kinda like nobody knows me anymore

Knows me anymore

Or maybe I've been lookin' for a stranger

Maybe I'm living for the danger of the fall

But ooh, aren't we all?

[Refrão]

We're all just twenty something, twenty something

We don't know what we want but God we want it

With us it's all or nothing

Breaking hearts just to know that we're still beautiful

[Segunda Parte]

My parents think I'm hopeless

My mother said that writing all these songs

Won't keep me afloat for long and

My friends think I'm homeless

I'm showing up to parties unannounced

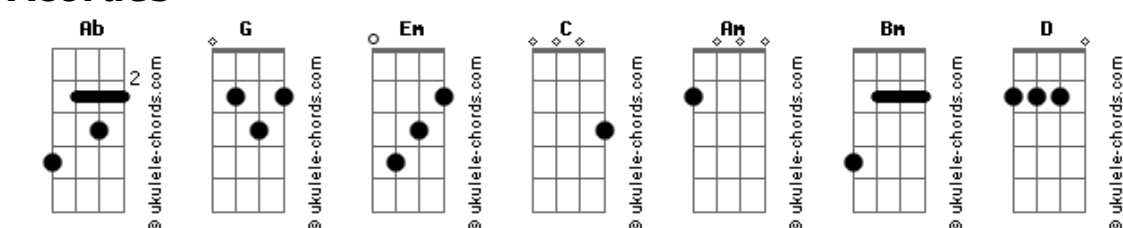

Drunk and stumbling around

[Pré-Refrão]

'Cause lately I've been feeling kinda lonely

Kinda like nobody knows me anymore

## Acordes

Kinda like nobody knows me anymore

Knows me anymore

Or maybe I've been lookin' for a stranger

Maybe I'm living for the danger of the fall

But ooh, aren't we all?

[Refrão]

We're all just twenty something, twenty something

We don't know what we want but God we want it

With us it's all or nothing

Breaking hearts just to know that we're still beautiful

We're all just twenty something, twenty something

Scared of what's next, so we just keep on running

Kiss me, we won't remember

Breaking hearts just to know that we're still beautiful

[Ponte]

And now

If everybody says these are the best years of our lives

Then why

Does everyone around me look so lost tonight?

[Refrão]

We're all just twenty something, twenty something

We don't know what we want but God we want it

With us it's all or nothing

Breaking hearts just to know that we're still beautiful

[Final]

We're all just twenty something, twenty something

(We're twenty something)

Scared of what's next, so we just keep on running

(Next so we just keep on running)

Kiss me, we won't remember (Ooh, we won't remember)

Breaking hearts just to know that we're still beautiful
