Intro: C G F C

C G  
I don?t want to be myself these days  
F  
I don?t want to think about myself this way  
C  
Without you  
F  
Without you

C G  
I haven?t been alone since I was 18  
F  
Now there?s another body where you used to be  
C  
It?s not you  
F  
Oh he?s not you

C  
I miss you and it hurts  
G  
I?m sleeping in your shirts  
F  
But seeing you would make it worse

C  
I feel you on my skin  
G  
A part of me again  
F  
I never stopped listening

When you said

C  
Can we skip the part when we say bye bye  
F  
Can we still talk on the phone sometimes  
Am F  
Can we skip the part when I say

That I?m lost without ya

C  
Can we be the exes that still stay friends  
F  
I know it never works but we?ll try again  
Am F  
Can we skip the part where we?re pretending  
G F G  
That I won?t be lost

Without ya

C  
Whenever I?m bored  
G  
I lay down on the floor

And feel a rush of panic  
F  
That you might walk through my door  
C  
But it?s not you  
F  
Mm think I miss you

C  
We used to be attached  
G  
Now we?re standing back to back  
F  
Remember when I told you

I think opposites attract  
C  
Well it?s not true  
F  
It?s not true

C  
I miss you and it hurts  
G  
I?m sleeping in your shirts  
F  
And every minute?s getting worse

C  
I feel you on my skin  
G  
A part of me again  
F  
Was hoping you would understand

When I said

C  
Can we skip the part when we say bye bye  
F  
Can we still talk on the phone sometimes  
Am F  
Can we skip the part when I say

That I?m lost without ya

C  
Can we be the exes that still stay friends  
F  
I know it never works but we?ll try again  
Am F  
Can we skip the part where we?re pretending  
G F G  
That I won?t be lost

Without ya

C F  
I?m lost without you  
Am  
You?re lost without me  
F G  
We lost when we gave it up before the end

Maybe we should start again  
C F  
I?m lost without you  
Am  
You?re lost without me  
F  
We lost when we gave it up before the end

Maybe we should start again
