

Ellen Foley - We Belong To The Night

tom:

G

The burning sun hangs over the city

G

You and me baby, we don't feel nothing at all

C

From nine to five we're lost

This life ain't so pretty

G

But when the sun goes down

We know that we can stay and talk

D

I just can't wait

Em

For the night to come

C

Cause when the shadows cover the light

D

We're the only ones

G C

Cause baby, we

G C

We belong to the night

G C

Yes, baby, we

G C

We belong to the night

G D Em

By day we just survive

D C D

But after dark, we come alive

G

Cause baby, we

D G

We belong to the night

D

Dancin' on the street

In the heat of the neon

The quiet in the cool night air

Makes it easy to breathe

C

The music that we hear in our hearts

Gives us something to dream of

G

Cause when that lonely soul that calls

It's those dreams that we'll need

D

To keep us strong

Em

To take us far

C

Far away from the pain of the days

D

Cause like the moon and the stars

D C

So baby, we

G C

We belong to the night

G C

Yes baby, we

G C

We belong to the night

G D Em

By day we just survive

D C D

But after dark, we come alive

G

Cause baby, we

D G

We belong to the night

D C

So baby, we

G C

We belong to the night

G C

Yes baby, we

G C

We belong to the night

G D Em

By day we just survive

D C D

But after dark, we come alive

G

Cause baby, we

D G

We belong to the night
